

Our Marriage Preparation Course was so enjoyable that we immediately knew we wanted to participate in this ministry. We were newlyweds ourselves when we joined the Marriage Preparation Team. We enjoy meeting engaged couples, sharing our experience and learning how other married couples deal with the challenges of married and family life. The engaged couples we meet tell us consistently that they gained a lot from hearing about our experience as married people. With a young family and many other commitments, we were worried about the time commitment but we found it was easy and fun to participate. The Marriage Preparation Ministry has allowed us to spend quality time together as a couple while focusing on improving our relationship in a Christian setting.
